**Subject:** Street Sweepings and Catch Basin Cleanings

So far I have identified 5 potential landfills: Dartmouth, Fall River, Middleborough, Taunton and Westminster. The only one I have spoken to so far is Dartmouth. They charge \$9/ton for sweepings and cleanings; soon to go to \$10/ton. They need a completed application for the sweepings, and an approved beneficial use permit and completed application for the cleanings. I will let you know as things develop. Let me know if you need to dispose of the sweepings immediately - if so, I will complete the Dartmouth application. Mike
